

Honored Followers of the Silver Way,

the Silver Information Division (SID) is an organization dedicated not only to the acquisition, analysis, and publication of information, but also to performing a number of services for the smoother operation of the Silver Camp.

While the SID has already been present at prior Drachenfests, a circle of players has worked tirelessly throughout the last year to strengthen its role. By avoiding some of the previous mishaps, we aim to support the camp leadership, for example, by more reliable scheduling of camp events. But the main task of the SID will be the consistent distribution of information (in multiple languages, if necessary) and potential quests to the Silver populace. The key idea is to enable more players to actively participate in the many stories, both large and small, that are developing on the Isles of Dragons.

The SID will absolutely rely on the help of both volunteers as well as paid supporters, in roles such as scribes, informants/agents, ambassadors, advisors, bureaucrats, and many more, to actually realize its potential. The wide spectrum of tasks (and hooks for active player engagement) is apparent from the SID being organized as ten offices:

SID headquarters are located in a frame house close to the camp battleground, while a branch office is maintained directly by the main gate. Bulletin boards will update the Silver populace on current developments and crucial news, such as declarations of war or peace. We will try to continuously staff these locations with SID coordinators or trained volunteers to provide assistance.

The SID can be successful in its mission only if it is accepted and supported by the players. Don't hoard information, if you hear of a quest or an interesting development, let us know! We will put you in touch with other players interested in the same topic, so you can play *together*, for the greater honor of the entire Silver Camp.

We are Silver, we are the Light!
